Subject: Records Request

CAUTION: [This email originated from outside of the organization. Do not click links or open attachments unless you can confirm the sender and know the content is safe]

Ms. Raterman:
I am writing to you with the following public records request:

1. For the last 5 years including and since 2016-2017, district level panorama survey results and totals for all students aggregated by grade level. (By way of example, if there was a panorama question such as do you feel hopeful about the future? what are the percentage responses if you total each grade separately in the district)
2. For the last 5 years any panorama teacher surveys
3. For the last 5 years, total number of students in each grade receiving remedial classes or enrolling in online classes for credit recovery toward graduation credit requirements as a percentage of total students in the grade.
4. For the last 5 years, a list of teacher professional development topic/presentations covered. Include the name of any third-party organization or provider who provided the professional development, and any funds paid to that organization or provider by the School District.
5. For the last 5 years, any data related to the number of students who have committed suicide or attempted, and any democratic data on the students' incidents (obviously no names or similar confidential information)
6. Any district level data on student discipline, number of suspensions / expulsions for the last 5 years and the democratic data associated with that.
7. Any district level data on number of bullying reports for the last 5 years and the classification of the complaint.

I would like to see these results to see what the trends are in terms of student and teacher health and wellbeing and students falling behind or needing remedial instruction to allow them to graduate. I am going back 5 years to see what the baseline was prior to COVID and see that has happened with the trends in all of these areas since then and to provide context for where we stand now. If the aggregation of the date has not been done and would be burdensome to do, you can provide excel files of the raw data with student identification removed, and I can aggregate it on my end. This data will be very helpful in the discussions of board policy changes and discussions as well.

Your time and attention to this matter is greatly appreciated. If any part of this request is too burdensome, please feel free to call me to discuss.
Thanks for your help with this matter, note also, this request is being done in my capacity as a concerned parent and community member.

Omar Tarazi Esq.

Subject: RE: Spring Panorama SEL and DEI

CAUTION: [This email originated from outside of the organization. Do not click links or open attachments unless you can confirm the sender and know the content is safe]

Good afternoon,
Thank you for your detailed response.
We can follow up in the future. BTW: In your prior response you stated:
"For the last 5 years, a list of teacher professional development topic/presentations covered. Include the name of any third-party organization or provider who provided the professional development, and any funds paid to that organization or provider by the School District. – **No such records exist, however we have printed out Summer Academy and Hilliard University Professional Development options and financial records of third party vendors. I can mail those to you, or you can pick up from our central office during normal business hours.** "

If it is possible to email the financial records of third party vendors, as well as the contract / cost for the Panorama Surveys that would be very helpful and appreciated.
Have a nice day!
Omar Tarazi Esq.

Good Afternoon,

At this time there are no records to give. The surveys are not even completed until later this month and it will take into May to get the data. If you'd like to put in a request later that would work.

Dear Ms. Raterman:
I hope you are doing well. I understand that this past week the district did its spring panorama SEL and DEI surveys. I would like a copy of those district level results just like before.
No confidential student information is being requested.
Thank you very much for your time and attention to this request.

Good Morning Lisa,

You should get a confirmation screen that pops up after submitting a request that says it was submitted. I looked at the sheet and we did receive one request from you at 11:59 last night asking for all books that were directed to be in libraries. That was the only request though.

Feel free to continue to email me requests, the online form is just one more way to put in requests, but you can still email me directly. Or fill out the form, really whichever is easiest for you.

Can you resend me the second request you are talking about so I can begin to process that one as well. I am not sure why it wouldn't have been on the form next to your other one.

Thanks, Stacie

Lisa,

I can confer with legal council but I believe this request will be overly broad. In an effort to get to what data you are looking for, do you want the STAR results? That we would be able to run reports to get to you, please let me know.

Stacie

Very strange that it is blank, when I open it is there. Let's try this attachment, and if this doesn't work I can copy and paste it into the body of the email, or mail a copy to you. This is the only responsive record to your request. Section 149.43(B)(3) of the Ohio Revised Code requires that when disclosure of a public record is denied in full or in part, the public body must provide an explanation of the denial, with citation of legal authority. Documents you requested that are attorney-client privileged communications are not public records, and as such your request for those communications is denied. See, *State ex rel. Anderson v. Vermilion* (2012), 134 Ohio St.3d 120.

Good Morning,

This is first to let you know this has been received. To run an email search, we need specific keywords. Do these meet your criteria?

Turning Point Action Club
Discrimination

And I see some of the names listed below are students. We can't release student information those are academic records. Any mention of student names or possible identities would be denied and redacted.
